RE: 2010-11 COMMITTEE AND PROJECT MEMBERSHIP

The Hartford County Bar Association is a strong organization, due to the steadfast dedication and involvement of our members. In preparing for the future of our dynamic organization there is a need for members to participate in all committees. I urge those of you who are active in one or more committees or projects to continue and invite those who have not yet joined to please do so. I encourage you to participate in either a substantive law committee or in one of our numerous other committees or projects, such as Continuing Legal Education, Bench/Bar or Young Lawyers.

Please indicate whether you would like to chair a committee or serve as a member. If you currently chair a committee and/or project wish to continue please indicate below. Thank you.
