Online Research with LexisNexis

*The Lexis Nexis Research Advantage is we have **"More of what Matters Most"**.*

More Summarized cases on recent case law (over 50% more)

More Court Cited Analytical Content

More Case Outcomes

More News and Business Sources

More public record types – with exclusives

LexisNexis also offers **exclusive materials** to include:

- **Lexis Web** – open web search that only provides results from authoritative sources that have been verified by Lexis. This provides you with quick results to sources you can count on omitting questionable sources.
- **Lexis for Microsoft Office** – This first-of-its kind integration with Microsoft applications transforms the way legal research is conducted. Legal professionals can now find, analyze and act upon legal content while working within Microsoft Office Outlook, Word and SharePoint Server.
- **Public Records with Smartlinx** – Largest public records database in the world. SmartLinx feature helps make logical connections and delivers comprehensive summary report to your desktop
- **Shepards** – Premier citator tool valued for its accuracy and timeliness. Headnotes can also be shepardized.
- **IDEX Expert Witness** – One of the Largest, most comprehensive expert witness database for evaluating the credentials & credibility of an expert witness. Identifying grounds for challenging the admissibility of the opposing counsel's expert witness, performing early & ongoing case assessment.
